

Abstract Template for Poster

To be completed and returned by e-mail
in pdf file,
To Delphine BRU : dbru@pjl-congres.com
as soon as possible

NAME AND MAILING ADDRESS

Family name :

First name :

Company :

Address :

.....

Country : *E mail* :

Phone : *Fax* :

The paper should be typed on this Abstract template for Poster, and be on 1 page following the example above.

Use Times New Roman font. The text should be written in English.

Title: body 14 – Bold face – centred alignment
Empty line – body 12

Authors: First name and family name - Body 12 - light italic - centred alignment (main author underlined)
Empty line – body 12

Affiliation: Institute/Department, Centre, City, Country.
Body 10 – light italic – centred alignment
2 empty lines – body 10

From here structure on 1 column

Text and tables : Body 12
Text : light – justified alignment.

Legends : Body 11 – light italic – justified alignment.

References : Body 10 – light - justified alignment – Numerate progressively in alphabetical order the references.

Possibility to include illustrations (black and white only), tables and figures.

Comparative influence of the wind strength intensity in San Francisco vs St-Malo on protein folding

Susan Miller¹ & Bernard Badet²

¹*Department of Pharmaceutical Chemistry, University of California San Francisco CA 94158-2517 - USA*

²*Institut de Chimie des Substances Naturelles, CNRS 91198 Gif-sur-Yvette Cedex – France*

During our recent investigations of pleasant housing and fine food in St-Malo, we discovered a surprising effect of wind strength on the proper folding of important humorous proteins. To investigate this phenomenon further, we have undertaken a comparative study of effects of wind strength in San Francisco....
